

IBRAHIM MARWAN GHAYBOUR

FRONT-END WEB DEVELOPER

 ebrahimghaibour65@gmail.com |  +201122625805 |  Egypt, 10th of Ramadan

SUMMARY

Passionate Front-End Developer with 2+ years of experience building modern, responsive, and user-friendly web applications. Specialized in Vue.js, Nuxt.js, and Tailwind CSS, with strong knowledge in performance optimization, accessibility, and SEO. Basic experience with NestJS and Mongoose enables me to contribute to full-stack applications. Skilled at collaborating with cross-functional teams and delivering high-quality projects. Currently seeking opportunities to contribute to innovative products and grow within the web development industry.

TECHNICAL SKILLS

Programming Languages & Technologies: JavaScript (ES6+), TypeScript, HTML, CSS, Tailwind CSS, Bootstrap

Frameworks & Libraries: Vue.js, Nuxt.js, VueUse, Vuex, Pinia, ShadcnVue, GSAP.js, NestJS, Mongoose

Development Tools: Git, GitHub, NPM, Webpack, Figma, REST APIs

Soft Skills: Problem-solving, Collaboration, Time Management, Adaptability

WORK EXPERIENCE

Front-End Web Developer | TebaLink

Jun 2025 – Feb 2026

- Refactored and scaled the ERP front-end architecture using clean and maintainable coding practices.
- Optimized a slow e-commerce platform through code splitting, lazy loading, pagination, and efficient data fetching.
- Improved overall application performance by 2x+, delivering faster load times and a smoother user experience.

Freelance Projects

2025 - June

Curva Egypt – E-commerce Website <https://curvaegypt.com>

- Built and launched a complete e-commerce platform independently using Vue.js, Nuxt.js, TypeScript, Tailwind CSS.
- Implemented multi-language support, dark/light themes, and full SEO optimization
- Integrated dynamic meta tags, responsive design, and accessibility best practices.
- Connected the frontend with APIs for dynamic product display, routing, and async data loading. Focused on performance, user experience, and mobile-first design.

User Management Dashboard (Vue 3, Nuxt, Pinia) 2025

- Built a role-based user management system with authentication & session handling
- Implemented CRUD, pagination, filtering, and sorting with a mock API
- Added i18n, theme switching (light/dark), and custom directives (permissions, focus)
- Integrated Pinia state management with caching & optimistic UI updates

Front-End Web Developer | Genwin

2024 - April

- Designed and developed responsive web applications using Vue.js, Nuxt.js, JavaScript, and Tailwind CSS.
- Implemented UI/UX designs to improve user experience and reduce bounce rates by 30%
- Collaborated with back-end developers and designers to ensure smooth integration of APIs and features
- Conducted regular debugging and performance testing, ensuring cross-browser compatibility.

EDUCATION & CERTIFICATIONS

[Faculty of Science, Mathematics] – Damascus, Syria

While my formal education is unrelated to web development, I have dedicated over two years of self-learning and practical experience in front-end development.

LANGUAGES

-  **English:** Intermediate
-  **Arabic:** Native

NEXT STEPS

- Looking for opportunities to join innovative teams and contribute to high-impact projects.
- Open to remote or on-site roles focused on front-end development.
- Passionate about expanding my expertise in JavaScript frameworks and UI/UX design.
